

Letter to Alexander Graham Bell, January 26, 1914

January 26, 1914. Dr. Alexander Graham Bell, 1331 Connecticut Ave., City. Dear Dr. Bell:

—

Bell et al. v. Myers, Intf. N o 34,4553 .

We enclose herewith letter-press copy of a communication from the Patent Office dated January 23, 1914, fixing the time for taking testimony in this interference. As you will observe, March 24, 1914, is the limit now fixed for the taking of the prima facie testimony on behalf of Bell et al. In this connection we beg to again call your attention to our letter of October 21, 1913, and to your letter of November 10, 1913. In your said letter, you advised us that you would write us further as to whether or not the interference was to be contested, after you had had definite news from Mr. Charles J. Bell. Please promptly take this matter up for consideration and let us know, without delay, whether or not we are to fight this case. As we advised you in our letter of October 21, 1913, if we are to fight this interference we should proceed promptly, as there is much to be done and the time is short.

Sincerely yours, K-IW Enc.
